

# Governance Build List

The instruments, actions, and decisions the corporation's own documents call for, found by auditing each board position description line by line. A living list: items are added as each position is audited and struck as each is built.

## INTERNAL · FOR THE BRIDGE · WORKING LIST

Prepared by Alley Till for Branding & Outreach · [alley.till@luminara.institute](mailto:alley.till@luminara.institute) · begun September 2, 2026

## METHOD

Each board position description cites the authorities its duties rest on. Every citation either points at an instrument that exists or reveals one that must be created. This list walks each position, pulls every reference, and records what it found. Statute citations were verified against the published RCW text at the Washington State Legislature on September 2, 2026.

## STATUTE VERIFICATION

**All ten distinct citations verified accurate:** RCW 24.03A.120 (organization of corporations), .495 (standards of conduct, directors), .580 (procedure for remote meetings), .585 (officers), .590 (standards of conduct, officers), .630 (indemnification and advance for expenses), .906 (distribution of assets on dissolution), .908 (corporations holding charitable property), chapter 1.80 RCW (Uniform Electronic Transactions Act), chapter 19.09 RCW (charitable solicitations).

**One nuance for ruling:** RCW 24.03A.585(1) states officers "consist of a president, secretary, and treasurer"; it names the office, and no subsection permits title substitution. Resolution 3 leaves the President's office expressly vacant while the Chair performs its functions. Hardened alternative: declare the Chair is the corporation's president within the meaning of RCW 24.03A.585, serving under the title Chair of the Board. Queued for Alley's ruling and the attorney-review pass already on the adoption checklist.

### POSITION 5 · DIRECTOR — AUDITED SEPTEMBER 2, 2026

The audit that proves convergence: every duty on the Director page resolves to an item already surfaced. Preparation and voting rest on the meeting kit's advance packet; terms rest on the Class and Term Register; conflicts rest on the Disclosure Log; recorded portfolios rest on the Portfolio Register; arrival rests on the Officer Onboarding Packet. The fifth audit found nothing new because the first four had already exposed the whole system.

## **AUDIT PROGRAM COMPLETE**

Five positions audited September 2, 2026. Twenty-eight distinct items surfaced: instruments, board actions, and decisions the corporation's own documents call for. Items are struck from this list as each is built or resolved.
