

Build-Days Checklist

Everything from the benchmark's "to close" boxes, sequenced into a few working days. Owner abbreviations: **GOV** = governors of record (Furness, Nilsen) · **BRD** = new board once elected · **SEC** = secretary · **TRE** = treasurer · **B&O** = Branding & Outreach (Alley) · **WEB** = website lead.

Day 0 · Prepare the papers · nothing here needs a vote; all of it makes Day 1 a one-sitting meeting

- ☐ **Resolve every bylaws bracket to a recommendation.** Work from BYLAWS-OPEN-ITEMS; attach a one-line rationale each. Decide the membership recommendation: board-governed, "member" as community title, no voting class.
GOV + B&O
- ☐ **Draft the organizational-meeting agenda and resolutions.** Elect the nine-member board · elect officers, the Chair holding the office of president · adopt bylaws · adopt conflict-of-interest policy · set fiscal year · ratify the existing depository account and adopt the Financial Controls and Expense Reimbursement policies · confirm the six divisions and interim leads · assign HeartBeam a single accountable division · confirm the four Bridge Groups · adopt member-intake path · adopt records-retention policy and signing protocol · authorize fiscal sponsorship and Form 1023 · adopt public language standard and Branding Style Sheet · adopt Founding Charter · adopt Gift Acceptance Policy and Remote Meeting Procedures and establish the Advisory Council. One resolution each, pre-written.
GOV + SEC
- ☐ **Draft the five policies.** Conflict of interest, on the IRS Form 1023 sample as the accepted base. Financial controls, one page: dual approval by the Treasurer and Chair over \$5,000 or one percent of budgeted annual expenses, whichever is greater; treasurer reconciles monthly, a non-signing director reviews quarterly; ledger from first dollar; budget-vs-actual on every board agenda. Expense Reimbursement, Gift Acceptance, and Remote Meeting Procedures.
TRE
- ☐ **Draft the VWS fiscal-sponsorship agreement.** Fund name, admin fee, sponsor discretion-and-control clause, reporting, and termination terms (asset transfer, notice period, grant reassignment). Send to VWS ahead of Day 2.
GOV

- ☐ **Deposit the EIN letter and bank paperwork in the records set** alongside the filed incorporation documents.
TRE
-

Day 1 • The organizational meeting · the root gap closes here

- ☐ **If the board vote already happened: retrieve, sign, and file the minutes:** confirm they cover bylaws adoption and officer elections; anything missed becomes a ratification item. If not: convene the two governors and run the agenda (remote is valid; email notice is valid, per RCW 24.03A defaults).
GOV + SEC
 - ☐ **Elect the board; elect officers, the Chair holding the office of president under the Chair title, a Major Action under Bylaws Section 5.9 stated on the notice and passed by two-thirds; adopt bylaws.** Chair signs the bylaws, secretary attests, adoption date recorded.
GOV → BRD
 - ☐ **Pass the remaining pre-written resolutions:** conflict of interest, fiscal year, account ratification and financial policies, divisions and leads, Bridge Groups, intake, retention and signing protocol, fiscal sponsorship and Form 1023, public language and Branding Style Sheet, Founding Charter, Gift Acceptance and Remote Meeting Procedures with the Advisory Council.
BRD
 - ☐ **Minutes finalized and signed within 24 hours;** deposited as the first item in the corporate-records drive. Conflict-of-interest disclosure forms collected from all nine.
SEC
-

Day 2 • Money and filings

- ☐ **Align the existing bank account with the record:** confirm it's under the exact legal name (no ", Inc.") and EIN, and that its signers match a board resolution; Resolution 6 ratifies it; confirm the Chair has delivered the account records, credentials, and the CP 575 to the Treasurer and Secretary. Apply the dual-approval threshold to it.
TRE

- ☐ **Sign the VWS sponsorship agreement:** both boards. Unless and until the IRS recognizes exemption, every donation surface states gifts are received via the Virtual World Society.
GOV + VWS

- ☐ **Set the 501(c)(3) timeline.** Form 1023 filing target date; WA charitable-solicitation registration (Secretary of State Charities Program) filed before public fundraising; sponsorship exit date pencilled 6–12 months out.
BRD

- ☐ **Start the ledger.** Accounting software live, make-a-thon and event spending entered retroactively, first budget-vs-actual scheduled for the next board meeting.
TRE

Day 3 • Records, identity, claims

- ☐ **Stand up the corporate-records shared drive** in the org Workspace (shared drive, not My Drive). Deposit: Articles, certificate, initial report, EIN letter, adopted bylaws, minutes, policies, sponsorship agreement. Vault stays the working mirror.
SEC + B&O

- ☐ **Cut outbound mail over to @luminara.institute;** lightschool@virtualworldsociety.org becomes a monitored forward. Signature blocks updated org-wide.
WEB

- ☐ **Fix the website in one pass:** program names per the style sheet; "Lingua Lumina" → Lumina Lingua; footer year and attribution updated per the sponsorship agreement; The Light School named as the institute's ground school where lineage matters; charter page relabeled as the CODEX discussion draft, with the Founding Charter adopted under Resolution 13 as the ratified text.
WEB + B&O

- ☐ **Finish the therapeutic-claims sweep:** remaining program work plans plus every live site page, before any website copy is reused. Aspirational framing replaces outcome claims: "designed to support," never "heals."

B&O + RESEARCH LEAD

- ☐ **Open the claims register:** one row per public health-adjacent statement → evidence tier → status. New public copy routes through one named reviewer (CODEX §20 made operational).

RESEARCH LEAD

Standing • The cadence that keeps it to standard

- ☐ **Board meets on a fixed cadence** (monthly while forming; the 4th-Tuesday Bridge slot is the natural home). Minutes within a week, filed in the records drive.

SEC

- ☐ **Budget-vs-actual on every agenda;** quarterly financials to the full board; annual property inventory.

TRE

- ☐ **Annual report to WA SOS each year;** bylaws review on a two-year cycle; CODEX review cadence per its own §51.

SEC

- ☐ **Consortium and IP terms written before the first partner or prototype ships:** membership agreement pattern (Media Lab lesson) and IP-ownership policy (Bell Labs / PARC lesson).
